

Message analytics

Merchant ID	20
From	2026-09-23T00:00:00.000Z
Through	2026-09-29T10:00:00.000Z
Time zone	UTC
Window definition	The window includes the current partial day. Dates and distributions use UTC.

Messages

Counts stored messages, including outgoing ones. An outgoing record does not prove delivery.

Metric	Count
All messages	10
Incoming messages	6
Outgoing messages	4
Conversations with messages	3

Message types

Counts stored messages, including outgoing ones. An outgoing record does not prove delivery.

Type	Count	Share of sample
Text	6	60%
Voice	2	20%
Image	1	10%
Document	1	10%

Messages by day

The window includes the current partial day. Dates and distributions use UTC.

Date	Count
2026-09-23	0
2026-09-24	0

Date	Count
2026-09-25	0
2026-09-26	2
2026-09-27	3
2026-09-28	4
2026-09-29	1

Messages by hour

Messages grouped by their stored UTC hour across the selected window.

Hour	Count
00:00	0
01:00	0
02:00	0
03:00	0
04:00	0
05:00	0
06:00	0

18:00	0
19:00	0
20:00	0
21:00	0
22:00	0
23:00	0

Stored sentiment

Latest stored analysis per incoming message in the window. Shares use all incoming messages, including unclassified ones. These are classifications, not satisfaction or sales proficiency measurements.

Type	Count	Share of sample
Positive	2	33.3%
Negative	0	0%
Neutral	1	16.7%
Happy	0	0%
Angry	0	0%
Sad	1	16.7%
Frustrated	0	0%
Unclassified messages	2	Unavailable
Classification coverage	4	66.7%

Reported confidence details

A score reported by the analyzer itself, not measured accuracy. Only values from 0 to 100 enter the average.

Metric	Value
Average stored confidence	80%
Valid confidence values	4
Out-of-range values	0

Product-name mentions

Top 10 current catalog names found literally within incoming text, once per message and product. This does not prove purchase intent. Prices are current, not historical; minor means currency minor units and unverified needs review.

Product	Messages matching the name	Stored price	Price unit	Currency
قهوة مختصة من المرتفعات - اسم طويل لاختبار التفاف النص وإظهار المنتج كاملاً	3	1250	minor	SAR
=HYPERLINK("https://invalid.test")	1	99	unverified	USD

Conversation–order association

A conversation phone exactly matches an order phone from the same merchant, both created in the window. Includes cancelled and unpaid orders. Matching does not prove assistant attribution or payment.

Metric	Value
Conversations created in window	3
Conversations whose phone has an order	1
Phone association share	33.3%
Sales proficiency	Not measured by this data
